PROFESSIONAL SUMMARY

Backend-focused Java Developer with hands-on experience in building full-stack web applications using Spring Boot, Spring Security, JWT authentication, Spring Data JPA, and SQL databases. Skilled in developing RESTful APIs, implementing role-based authentication systems, and creating scalable backend logic for real-world applications. Familiar with frontend integration using React.js, HTML, CSS, Bootstrap, and Thymeleaf to connect user interfaces with backend services. Strong understanding of CRUD operations, database management, authentication workflows, and full-stack application development.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript

Backend: Java 8, Spring Boot, Spring Security, JWT Authentication, Spring Data JPA, Hibernate, RESTful APIs

Frontend Technologies: React.js, HTML5, CSS3, Bootstrap, Thymeleaf

Database: MySQL, SQL Queries

Tools & Version Control: Git, GitHub, Postman, IntelliJ IDEA, VS Code, Maven

Concepts: OOPs, CRUD Operations, Authentication & Authorization, MVC Architecture, API Integration

PROJECTS

E-Commerce web application

GitHub : <https://github.com/primeio/e-commerce>

Tech Stack: Java, Spring Boot, Spring Security, JPA, Thymeleaf, SQL

- Developed a full-stack e-commerce application with Admin and User roles.
- Implemented secure login, registration, and role-based authentication.
- Built product, category, and order management modules with CRUD operations.
- Added pagination, product search, and order status update features.
- Integrated SQL database using Spring Data JPA and Hibernate.

Expense Tracker web Application

backend GitHub: https://github.com/primeio/expense_tracker

frontend GitHub: https://github.com/primeio/expense_tracker_frontend

Tech Stack: React.js, Spring Boot, Spring Security, JWT, SQL

- Developed a full-stack expense tracker using React.js and Spring Boot.
- Implemented JWT authentication and REST API integration.
- Built income, expense, and category management with CRUD operations.
- Created dashboard features for expense and income tracking.
- Integrated SQL database for secure data management.

EDUCATION

Bachelor of Science (BSc) in Computer Science

K. H. College, Gargotis

Passing Year: 2023

CERTIFICATIONS

- Java Spring Boot Full Stack Development – Udemy
